

NEW VIRGINIA SADDLE CLUB

Under Iowa law, a domesticated animal professional is not liable for damages suffered by, an injury, or the death of a participant resulting from the inherent risks of domesticated animal activities, pursuant to Iowa Code Chapter 673. You are assuming inherent risks of participating in this domesticated animal activity.

A number of inherent risks are associated with a domesticated animal activity. A domesticated animal may behave in a manner that result in damages to property or an injury or death to a person. Risks associated with the activity may include injuries caused by bucking, biting, stumbling, rearing, trampling, scratching, pecking, falling, or butting.

The domesticated animal may react unpredictably to conditions, including, but not limited to, a sudden movement, loud noise, an unfamiliar environment, or the introduction of unfamiliar persons, animals, or objects.

The domesticated animal may also react in a dangerous manner when a condition or treatment is considered hazardous to the welfare of the animal; a collision occurs with an object or animal; or a participant fails to exercise reasonable care, take adequate precautions, or use adequate control when engaging in a domesticated animal activity, including failing to maintain reasonable control of the animal or failing to act in a manner consistent with the persons abilities.
